FROM THE EDITOR'S DESK.....

Dear Researchers,

It gives me a great pleasure to launch Journal Research Vol.7, ISSUE-I, No.13,July-Dec., 2017, “Research Pool of Victoria College of Education” There are a lot of challenges which the growing education face in the realms of basic necessities in life. Education can play a very distinct role in bringing about this change. It is very important that different stakeholders unite and collaborate on issues which confront the society. One of the key objectives of research should be education research usability and application. This journal attempts to document and spark a debate on the research focused on education in context of emerging problems in education.

We welcome all creative idea and innovations become a real challenge to education. I would like to express my gratitude to all academicians, advisors, contributors’ referees and reader. I would pat the backs of my editorial team for their special effort and encouragement. I expect a wider participation in this venture from our young teacher educators.

Prof. Saroj Jain
